Brambledown

Meet the Dynamic Duo

Welcome to Brambledown Designs, where creativity meets quirkiness, all thanks to Symon (the artist with flair) and Pamela (the mastermind behind everything else). Together, we craft art that seamlessly fits into both your lounge and your game room—making geek chic truly a thing!

Art with a Geeky Twist

At Brambledown, we blend pop art with pop culture, using a playful mix of techniques. Fancy some linoprinting on vintage books and maps? Or how about upcycled old records transformed into fascinating, one-of-a-kind artworks? We've got that and more. From stylish wall art to coasters, bookmarks and badges, our designs are here to delight your inner geek and add a sprinkle of fun to any space.

A Tale of Transformation

Once upon a time, in a galaxy not so far away, Symon and Pamela were both science teachers. While they loved the thrill of blowing things up (safely, of course), they found their true calling in running Brambledown Designs. It's been a wild departure from the classroom, but one they wouldn't trade for the world. Well, maybe Symon misses the occasional explosion... just maybe.

Life at Brambledown Towers

Our creative base is filled with adventure and mischief, courtesy of Baxter and Morgan, our faithless hounds, and Tibbs, the infamous Beast of Brambledown Towers. They keep us on our toes, ensuring there's never a dull moment.

A World of Art Awaits

With Symon's newfound time post-teaching, our art collection has blossomed into a vast array of pieces. From nature-inspired beauties to classic literary motifs, with a hearty dash of geekery—from Heroes to Horror, inspired by our latest Netflix binge. Whatever floats your boat, we've got you covered!

Why Brambledown?

Why should our creations grace the walls of your shop or home? Because they're not just art—they're conversation starters, personality pieces, and a testament to passion. Join us in celebrating the bold and the beautiful at Brambledown Designs.

Let's talk about how our unique collection can add charm and intrigue to your store or client's home.

How to use this document.

This is a catalogue of images which are either intended to be pictures to hang on a wall or printed onto items for the home. So, if you like our kingfisher image and you'd like to sell it as a mug design we can provide that. If you'd like to see mock-ups first they can be provided, but making a document that places every picture we do onto everything we provide would just be a confusing mess!

The contents page will guide you to an overview of our wares and the genres we cover. The genre pages contain all our images (low resolution and watermarked) with notes about the type of thing they can be put onto, some pictures simply don't fit! At the end of every page is a link to take you back to the contents.

High quality prints

Our prints come on FSC approved archival paper and are presented in simple tasteful mounts and backed with high quality card. The images are produced using a variety of methods including watercolour, acrylics and mosaic.

Linoprints

Using the traditional method of linocutting these images are printed onto vintage books and maps, some of which are over 100 years old! The technique creates a truly unique image as the prints are handmade and the pages used are always different. The books used are always from charity shops and are usually destined for the shredder before I turn them into pieces of art that will be cherished for the same reasons the books were cherished in the first place. The pages are spray mounted onto heavy, high quality card and presented in simple tasteful mounts. Sizes vary depending on the book used.
